**Assignment: Fabric (Fiber) Collage**  
Seventh & Eighth Grade

**Project criteria:**

1. Using the provided piece of paper, scissors, glue, and scraps of fabric (you may bring some from home), you will create a collage based off of your completed sketch.
2. Consider your design possibilities and how some areas will overlap other sections of the collage. The entire surface must be covered with the fabric using at least 25 pieces that are specially cut for the design.
3. Be sure to keep your shapes cut neatly so that your image doesn't look like a big mess.
4. There will be a self-evaluation on this project when you have completed the work.

**Thumbnail sketch:**

A large, empty rectangular box with a thin black border, intended for a student to draw a thumbnail sketch of their collage design.
