## Assignment: Cityscape Perspective

Sixth Grade

### Self Evaluation:

Fill-out this form and return it with the artwork to the correct "To Be Graded" drawer.

#### How well did you meet the following criteria:

Circle a number (1-5), for each category, based upon your commitment and achievement during this project. For example, a (1) indicates that no effort was made and a (5) indicates that you put forth your greatest possible effort and achieved your desired results. Following your circled number, you must write a 3-4 sentence reason, or rationale, for the points that you awarded yourself (Tell me WHY you feel that you deserved those points). Be fair to yourself. I will consider your thoughtful completion of this form when assigning a grade to the project.

1. I created two thumbnail sketches that showed different cities (or different views of the same city) drawn using one-point perspective. Each sketch included one two major roads, ten buildings, a horizon line, and a vanishing point.

1      2      3      4      5
